SAMPLE

Sample results denoted with a "less than" (<) sign contain less than 5 fiber/100 fields which is the limit of detection (<7.0 f/mm2). The condition of the sample analyzed was acceptable upon receipt unless otherwise noted on this report. Results represent the analysis of samples submitted by the client. Sample location, description, area, volume ect., was provided by the client. If the report does not contain the result for field blank, it is due to the fact that the client did not include a field blank with their samples.
